Make It Big (feat. Khrysis)

9th Wonder

[Featuring: Featuring: Khrysis]Man you know, I think we decide our own legacy. Be honest with you, when you leave thea game or you leave this earth, people will decide a legacy for you. We're just here to do what we're supposed to do. Everybody else will decide what was your legacy, he was there he was that, he did this he did that. People will decide that for you. You have no control over it

The blast at me slamming on cast like heavy metal
Don't try this at home kids get on my level

But doing this just to tease you
You can say it's in the jeans
Uncle running sax granny is singing in the opera
Rest in peace Uncle Mark torn with the cops
Group Daddy started he was living out his dream
Then he passed it on to me and I told him I'm a make it bigSaid I'm a make it big
