Boys 'Round Here (feat. Pistol Annies & Friends)

Blake Shelton

Red red red red red red red red redneck
Well the boys 'round here don't listen to The Beatles
Run ole Bocephus through a jukebox needle at a honky-tonk, where their boots stomp
All night; what? (That's right)
Yeah, and what they call work, digging in the dirt
Gotta get it in the ground 'fore the rain come down
To get paid, to get the girl
In your 4 wheel drive (A country boy can survive)Yeah the boys 'round here
Drinking that ice cold beer
Talkin' 'bout girls, talkin' 'bout trucks
Runnin' them red dirt roads out, kicking up dust
The boys 'round here
Sending up a prayer to the man upstairs
Backwoods legit, don't take no shit
Chew tobacco, chew tobacco, chew tobacco, spit
Aw heck
Red red red red red red red red red redneck
Well the boys 'round here, they're keeping it country
Ain't a damn one know how to do the dougie
(You don't do the dougie?) No, not in Kentucky
But these girls 'round here yep, they still love meYeah, the girls 'round here, they all deserve a whistle
Shakin' that sugar, sweet as Dixie crystal
They like that y'all and southern drawl
And just can't help it cause they just keep fallin'
For the boys 'round here
Drinking that ice cold beer
Talkin' 'bout girls, talkin' 'bout trucks
Runnin' them red dirt roads out, kicking up dust
The boys 'round here
Sending up a prayer to the man upstairs
Backwoods legit, don't take no shit
Chew tobacco, chew tobacco, chew tobacco, spit
Let me hear you say
(Ooh let's ride)
(Ooh let's ride)
Down to the river side(Ooh let's ride...)
Hey now girl, hop inside
Me and you gonna take a little ride to the river
Let's ride (That's right)

Lay a blanket on the ground
Kissing and the crickets is the only sound
We out of town (Let's ride)
Have you ever got down with a...
Red red red red red red red red red red redneck?
And do you wanna get down with a...
Red red red red red red red red red red redneck?
Girl you gotta get down
With the boys 'round here
Drinking that ice cold beer
Talkin' 'bout girls, talkin' 'bout trucks
Runnin' them red dirt roads out, kicking up dust
The boys 'round here
Sending up a prayer to the man upstairs
Backwoods legit, don't take no shit
Chew tobacco, chew tobacco, chew tobacco, spit (Ooh let's ride)
Aw heck
Red red red red red red red red redneck
(Ooh let's ride) I'm one of them boys 'round here (Ooh let's ride)
Red red red red red red red red redneck (Ooh let's ride)
(Ooh let's ride...)
Well all I'm thinkin' 'bout is you and me, how we'll be
So come on girl, hop inside
Me and you, we're gonna take a little ride
Lay a blanket on the ground
Kissing and the crickets is the only sound
We out of town
Girl you gotta get down with a...
Come on through the country side
Down to the river side
