Cherry Papers

Jay Sean

(Intro)
You took all my papers now I hit the pen
Had a different view now I'm on the fence
Never split the bill now it's making sense
We did it for the thrill that's past tense
Had some wild time with some fine wine
Could watch you all night couldn't find time
Faded conversations under cloud 9
I think of them sometimes when I am....(Pre chorus)
Driving down we are silent
Hit fourteenth
My end of path of green
(Chorus)
I know we got lost back chasing moonlight
Smoking cherry papers
Headlights make your lips shine
You know that's my favorite
Fastforward time move so quick
I'm looking at my dashboard
See that lipstick
On those cherry papersLook to my right I might be phobic
They are all that I got to remind me of you yeah
They know where you at
They know what you are doing
They know what I want
They know what I'm proving
How could I forget those circle windows
Smoke alarms and purple lando
Leftover no bubento
Listening to instrumentals(Pre chorus)(Chorus)Your love's not forgotten
I know I should have thrown them long ago
The truth is it's hard to fake it
Sometimes I just need reminders of u
Coz we divided in two(Chorus)
