

Close (feat. Oly)

3LAU

I'm not fragile if you push me hard
I've weathered every storm so far
But I'm tired of always being the strong one
Be my shelter, be my heart I could add an edge to what you've got going
I should get going while it's still night
But there's something about this time that I'm enjoying
Yeah, I'm enjoying being by your side I wanna stay close to you
It's all I need to do
'Cause when I stay close to you
There's nothing we can't do
I wanna stay close to you
Oh, close to you
Oh, close to you
You always get me through so I
I wanna stay close oh, close oh, close oh
I wanna stay close oh, close oh, close oh
I wanna stay close oh, close oh, close oh
I wanna stay close oh, close oh, close oh I feel the pressure as they're closing in
I know that I can't win alone
And I'm tired of always being the strong one
Be my shelter, be my home
I could add an edge to what you've got going
I should get going while it's still night
But there's something about this time that I'm enjoying
Yeah, I'm enjoying being by your side
I want to stay close to you
It's all I need to do
'Cause when I stay close to you
There's nothing we can't do
I wanna stay close to you
Oh, close to you
Oh, close to you
You always get me through so I I wanna stay close oh, close oh, close oh
I wanna stay close oh, close oh, close oh
I wanna stay close oh, close oh, close oh
I wanna stay close oh, close oh, close oh You always get me through so I
I wanna stay
