Gold Dust

Galantis

You're like gold dust
It rains over me
A foreign sun that I thought I'd never see
You're like gold dustOh don't change ever
No don't change
There's a hollow in this house whenever you goYou're like gold dust
It rains over me
A foreign sun thought I'd never see
You're like gold dust
Keep coming down the street
There's a hollow in this house whenever you go
Keep coming down the street
There's a hollow in this house whenever you goKeep coming down the street
There's a hollow in this house whenever you goYou're like gold dust
