Break Away (feat. Jessie Ware)

Bobby Caldwell & Jack Splash

Stay away, stay away
If you care for yourself
Stay away
I had bad luck each and every day
Stay away!
Turn around, turn away
If you see me on the streets
Turn away
I could break your heart one day
Turn away!They're on the fire of the street
Where the sun shines
I will not disturb your space
You don't have to live like I live on the fall line
You don't have to see my face
I, I, I, I break away
You don't have to stay
Baby, break away
Break, baby break away
You don't have to stay
Baby, break awayBreak away, break away
That's the name of the game, break away
'Cause for there are games to play
Break away!
Turn around, turn away
If you see me on the street, turn awayI could break your heart again, one day
Turn away!
They're on the fire of the street
Where the sun shines I will not disturb your space
You don't have to live like I live on the fall line
You don't have to see my face
I, I, I, I break away
You don't have to stay
Baby, break away
(Gonna break away)
Break, baby break away
You don't have to stay
(Stay stay stay)
Baby, break away
Break, break away
You don't have to stay
Baby, break away
(Gonna break away)

Break, baby break away
You don't have to stay
(You don't have to stay)
Baby, break away
(Gonna break away)
