Le Deux

Hollywood Undead

I wanna tear it up, Before we tear it down
I wanna light it up, Before we burn it down
We gonna get fucked up, Drink 'til we all black out
So fucking start it up, 'Cause you know it's goin' downDrink, got swag, Yeah we keep it the same
Mad dogged all up, It the back of the rain
Ain't no balled up, Baby, got bills to pay
Yeah I'm getting fucked up, As I'm changing lanes
Oh my God, I'm one of a kind
I'm a smash it up, It's about that time
I'll be back to the party, By the end of the night
Cause my hoe got needs, And I needs mine
'Cause Funny Man, Is just so damn sexual
That ass on my mind, Is so damn edible
Feast your eyes girl, I'm so delectable
Dick like Hulk, Yeah they call me incredible!
You got your dress pulled up
I see you all around
I know you ain't no slut
But I know you're so downSmash it up, smash it up
That bitch is off the Smash it up, smash it up
And once I get that look
Smash it up, smash it up
I'll hit it all night long
Smash it up, smash it up
And once I smash I'm gone
Girl you're so hot, You could spark a match
Me and funny wanna flip you, Like an acrobat
And you could go back home, In a Cadillac
Put my name in your phone, It's the man in black
You got a big ol' mouth, And an ass to match
You got my back in a scrap, And I'm a fan of that
We could go home, And open up a can of that
I'll put my prize in your box, Like cracker jacks
But wait that's, Just me getting shit faced
Let me pull out my bluetooth, And brief case
And replace, Everything that I said wrong
But then it won't be, A Hollywood Undead songYou got your dress pulled up
I see you all around
I know you ain't no slut
But I know you're so downSmash it up, smash it up
That bitch is off the Smash it up, smash it up

And once I get that look
Smash it up, smash it up
I'll hit it all night long
Smash it up, smash it up
And once I smash I'm goneI wanna tear it up
Before we tear it down
I wanna light it up
Before we burn it down
We gonna get fucked up
Drink 'til we all black out
So fucking start it upSmash it crash it, What's only crackin'
It's me and you girl, Now that's what's happenin'
Let's take a little trip, To my stabbing cabin
Grab the cam, It's lights camera action
Let me take care, Of that satisfaction
Grab a six pack, I'll back off the wagon
Pour a little out, For Michael Jackson
I'll smash it now, 'Cause I know she's downSmash it up, smash it up
That bitch is off the Smash it up, smash it up
And once I get that look
Smash it up, smash it up
I'll hit it all night long
Smash it up, smash it up
And once I smash I'm gone
Smash it up, smash it up
This bitch is off the Smash it up, smash it up
And once I get that look
Smash it up, smash it up
I'll hit it all night long
Smash it up, smash it up
And once I smash I'm gone
Smash it up, smash it up
Smash it up, smash it up
