Just One Nite

Cassie

Cassie, Next Selection, R-LesJust one nite to be with you again 'cause I miss the way
That it felt when we made love, oh
Just one nite to be with you again 'cause I miss the way
Miss the way we made loveI ran across a, a picture of us
I admit I almost cried, oh
It made me realize how much I miss ya
How my life ain't been the same since you're goneLeft on my own, left with an empty space
Can't hide everything reminds me of you
Next thing I know that's when I see your face
And I know all I need is
Just one nite to be with you again 'cause I miss the way
That it felt when we made love, oh
Just one nite to be with you again 'cause I miss the way
Miss the way we made loveUh, I hope that you've been, that you've been missing
Missing me the way I miss you
Its so confusing, my mind I'm losing
And I hide it everydayLeft on my own, left with an empty space
Can't hide everything reminds me of you
Next thing I know that's when I see your face
And I know all I need isJust one nite to be with you again 'cause I miss the way
That it felt when we made love, oh
Just one nite to be with you again 'cause I miss the way
Miss the way we made love
Yeah, you wanted to break the night, call me up
Just a matter of time girl, for your wondrous self
No need to explain baby, I can see in your face
The real thing is the real heart to be placed, ain't it?You can try to play dumb, you can try to deny
You can say it's my fault but you know it's a lie
You know only one a damn thing, I was for real
Now I'm gone, tell me how does it feel?You miss me, don't you?
You know, you don't feel complete
Without your VVS gone
As you fly back the sweetsGot a GSM phone, still heart that beats
Cause the signal is low at the beach
When you're attending in knees
Who was to tell you, bring all of your friends?And on a scale of one O five, it's ten outta ten
Can we get it back now, how it should've been there?
Come me, we can do it, let's goJust one nite to be with you again 'cause I miss the way
That it felt when we made love, love, love
Just one nite to be with you again 'cause I miss the way

Miss the way we made love, yeah
