Nothing Really Matters (feat. will.i.am)

David Guetta

Watching the world
Watching them all go insane
Look at them all
Looking them do evil things
So I go out and dance
Party my problems away
Look at me now (look at me now)
Look at me dancing again
In a club nothing really matters
In a club nothing really matters
In a club nothing really matters
In a club nothing really matters
Drop the beat...In a club...I rock club, like karma out there
Night shot til daylight
Hot models my type
Let's go, take flight
Explode dynamite
Disco blacklightIn a club...Party people rocking hardcore in a club
DJ rock the fcking dancefloor in a club
Hot mamas dancing, oh lord, in a club
I just came to rock on out, to escape from the worldWatching the world (watching the world)
Watching them all go insane
Look at them all (look at them all)
Looking them do evil things
So I go out and dance
Party my problems away
Look at me now (look at me now)
Look at me dancing again
In a club nothing really matters
In a club nothing really matters
In a club nothing really matters
In a club nothing really mattersDrop the beat...In a club...Feeling like a star when I walk in the house
DJ spin that record and he burned down the house
Just like MC hammer I'mma turn the 'motha out
I'mma rock the dancefloor, check me out
I am with all my people, we gonna fck up the place
I was stressed out, so I had to get away
The world is going mad, I think they gone crazy
So I just gotta break on outIn a club nothing really matters
In a club nothing really matters
In a club nothing really matters

In a club nothing really mattersDrop the beat...
Drop the beat...
Drop the beat...
Drop the beat...
Drop the beat...
