

Bang (feat. Ghetts)

Wiley

When I go to war, I dun them
Could be this crew or that crew, I dun them
Could've joined that friend up, I will dun them
Out of town, that's where I run them
When I go to war, I dun them
Could be this crew or that crew, I dun them
Could've joined that friend up, I will dun them
Out of town, that's where I run them
Out of town, that's where I run you
I'll run up on the stage right now and I will dun you
I did it on my own in my city like a one yout
Ain't a battle but I'm spitting like a one two
Cyan't find me cause I'm lost like a [?]
Door's open, everybody wanna run through
I run through crew, I've got the pass for the run through
See a buff gyal, then I'm like "come through"
Always see me killing it, killing it like a madman
Everybody's into man or tryna be a badman
[?] man snaked man and grabbed man
Fling you in the boot, uppercut, then jab man
Flow's so wavy, fitting like a snapback
Grew up on The Prodigy, grew up on the rap act
My flow's ebola, my flow's anthrax
Yo, I've got a new vibe, everybody's on that
When I go to war, I dun them
Could be this crew or that crew, I dun them
Could've joined that friend up, I will dun them
Out of town, that's where I run them
When I go to war, I dun them
Could be this crew or that crew, I dun them
Could've joined that friend up, I will dun them
Out of town, that's where I run them
In '04, said I wanna be the best MC
I don't care about being on TV
I make couple mil, couple gyal, that's me
Have couple yards, couple cars, that's me
Two sixteen out here, murking shows
No Akademics now, I wear Dench clothes
Had a Punto, now I cop Lambos
Hard work pays off, yeah, don, I know
Sold-out tours, yeah, come to a show
If you ain't got the right P, the answer's no
Didn't see you on Rinse, didn't see you on Déjà
Now you wanna call me family, bro? Leave it

Looking for a bringing? You won't receive it
To get this far, you won't believe it
I'm not from Newham, I'm a general
Put some respect on my name when you speak it
When I go to war, I dun them
Could be this crew or that crew, I dun them
Could've joined that friend up, I will dun them
Out of town, that's where I run them
When I go to war, I dun them
Could be this crew or that crew, I dun them
Could've joined that friend up, I will dun them
Out of town, that's where I run them Yo, my name's Wiley, I'm grimy
I'm too shy, see, you won't get beside me
You won't get by or past me, don't put it past me
Blud, you will never outlast me
Yo, my name's Wiley, I'm grimy
I'm too shy, see, you won't get beside me
You won't get by or past me, don't put it past me
Blud, you will never
I've got stripes on my shoulders, scars of all the wars I've been in
Blud, I've never been a fortunate king
But if a man can live through the worse, avoiding the curse
Don't matter 'bout the wars I've been in
I've been getting run-down and running man down too
If man are grass then I can't be around you
I'm in the trenches, man might surround you
Man get rushed, can't swing? Then you better learn how to Dun them
Could be this crew or that crew, I dun them
Could've joined that friend up, I will dun them
Out of town, that's where I run them
When I go to war, I dun them
Could be this crew or that crew, I dun them
Could've joined that friend up, I will dun them
Out of town, that's where I run them
