Exhale

Plumb

It's okay to not be okay
This is a safe place
This is a safe place
Don't be afraidDon't be ashamed
There's still hope here
There's still hope here
No matter what you've done or who you are
Everyone is welcome in His armsJust let go let His love wrap around you
And hold you close
Get lost in the surrender
Breathe it in until your heart breaks
Then exhale
Exhale
Spirit come tear down the wallsThat only You can
That only You can
Reconcile this heart to Yours
Right now God
Right now
Just let go let His love wrap around youAnd hold you close
Get lost in the surrender
Breathe it in until your heart breaks
Then exhale
Exhale
Oh God We breathe in your grace
We breathe in your grace
And exhale
Oh God we do not exist for us
But to share Your grace and love
And exhale
Oh God We breathe in your grace
We breathe in your grace
And exhale
Oh God we do not exist for us
But to share Your grace and love
And exhaleJust let go let His love wrap around you
And hold you close
Get lost in the surrender
Breathe it in until your heart breaks
Then exhale
Exhale
Exhale
Exhale

Exhale
