Where You Go (feat. Future)

Ciara

You go
Do you go?
Where you go?
Go go go yeah
Where you go go go go go go go
Where you go?
Where you go?
Where you go?It was time when I seen you happy
Where you go?
It's been a minute since I've seen you smile
Yeah
Where you go?
Where you go?
Where you go?
Where you go?
Where you go?
Where you go?
Where you go?
There's a lion in the sky
It was brightened by your face
I could see it in your eyes
That you wouldn't part away
YeahSo don't hold your feelings in
You can trust me as a friend
Whatever you need to make it right
Imma be standing right by your sideMy love it goes on and on on
Every single night and day
Imma be here for you on and on on
Baby can you tell me? tell me
Where you go?
It was time when I seen you happy
Where you go?
It's been a minute since I've seen you smile
Yeah
Where you go?
Where you go?
Where you go?
Where you go?
Where you go?
Where you go?
Where you go?And I wanna see and I wanna cry and I wanna hurt no more
Don't have no fear, I got that cure, baby my love is pure

I need you now now now (I need you)
I'm stayin' down down downOn and on on
Every single night and day
Imma be here for you on and on on
Baby can you tell me? tell me
Where you go?It was time when I seen you happy
Where you go?
It's been a minute since I've seen you smile
Yeah
Where you go?
Where you go?
Where you go?
Where you go?
Where you go?
Where you go?
Where you go?
