

# Going On

Ella Eyre

Seen it with my own eyes  
How we're getting otherwise  
Without the luxury of leaving  
The touch I'm feeling I'm free  
Intangible technically  
Something you've got to believe in  
Connect the cause and effects  
One foot in front of the next  
This is the start of a journey  
My mind is already gone  
And though there are the unknown  
Somehow this doesn't concern me

(Pre-)

And you can stand right there if you want

But I'm going on

And I'm prepared to go with it all

I'm going on

To a place in the sand that's nice and warm

I'm going on

And I'm sure they'll have a place for you too

Anyone that needs what they want

And doesn't want what they need

I want nothing to do with oh oh

And to do what I want

And to do what I please

It's messed up not to do this

But every once in a while

I think our bodies can smile

One of the few things I do this

But baby I got to go

Baby I got to know

And baby I got to prove it

(Pre-)

And I'll see you when you get there

But I'm going on

And I'm prepared to go with it all

I'm going on

May your love lift you up to a place you belong

I'm going on

And I promise I'll be waiting for you

And I'm prepared to go with it all

I'm going on

May your love lift you up to a place you belong  
I'm going on  
And I'm prepared to go with it all  
I'm going on on on  
Taking you up to the place you belong  
I'm going on  
May your love lift you up to a place you belong  
I'm going on and on and on and on and on  
I'm going on and on and on and on  
Don't follow me
