No Rights No Wrongs

Jess Glynne

Going through hell while looking at heaven
Found an answer, looking for a question
Not enough words to make a sentence
It's not easy to find a wayHow much water to kill a fire?
How many lows can take you higher?
The only road to your desire
It won't be easy to find a wayI don't know what I believe
I won't let my eyes be deceived
The winds whispering through the trees
That is not gonna be, not gonna be easy
No rights, no wrongs, take it from me
'Cause the answers are living indefinitely
It's time to face it 'cause you can't change it
No rights, no wrongs, take it from me
Take it from me
Won't you take it from me?
No rights, no wrongs take it from meHow many laughs to make me happy?
All counting stars, they make me lucky
How many turns 'til I find me?
It's not easy to find a wayHow many lies 'til a confession?
How many prayers lead to a blessing?
How many burns to learn a lesson?
No, it's not easy to find a way
I don't know what I believe
I won't let my eyes be deceived
The winds whispering through the trees
That is not gonna be, not gonna be easyNo rights, no wrongs, take it from me
'Cause the answers are living indefinitely
It's time to face it, 'cause you can't change it
No rights, no wrongs, take it from me
Take it from me
Won't you take it from me?
No rights, no wrongs take it from meTalk to strangers, and take wrong turns
'Cause in this moment we will make it work
Dance with devils, and taste the burn
'Cause in this moment we will make it workNo rights, no wrongs, take it from me
'Cause the answers are living indefinitely
It's time to face it, 'cause you can't change it
No rights, no wrongs, take it from me
Take it from me
Won't you take it from me?
No rights, no wrongs take it from me
