

# Lonely Train

## Black Stone Cherry

Big train rolling down the line  
Makes me lonely  
Sometimes I wish to ride away  
Sometimes I want to ride away  
Yeah Big plane flying through the clouds  
Makes me worry  
Sometimes I wish to fly away  
Sometimes I want to fly away But you can't judge a book  
Looking at the cover  
You can't love someone  
While messing with another  
No, you can't win a war  
Fighting with your brother  
You wanna have peace  
Gotta love one another  
Big guns lighting up the sky  
Makes me worry  
Sometimes I wish to run away  
Sometimes I want to run away But you can't judge a book  
Looking at the cover  
You can't love someone  
While messing with another  
No, you can't win a war  
Fighting with your brother  
You wanna have peace  
Gotta love one another I have seen my brothers  
In ashes on the ground  
And maybe in a new life  
We can turn this thing around  
But you can't judge a book  
Looking at the cover  
You can't love someone  
While messing with another  
No, you can't win a war  
Fighting with your brother  
You wanna have peace  
Gotta love one another No you can't judge a book  
Gotta love one another  
Can't judge a book  
No you can't judge a book
