I'm Your Angel (with Céline Dion)

R. Kelly

No mountain's too high for you to climb
All you have to do is have some climbing faith, oh yeah
No river's too wide for you to make it across
All you have to do is believe it when you pray
And then you will see the morning will come
And every day will be bright as the sun
All of your fears cast them on me
I just want you to seeI'll be your cloud up in the sky
I'll be your shoulder when you cry
I hear your voices when you call me
I am your angel
And when all hope is gone, I'm here
No matter how far you are, I'm near
It makes no difference who you are
I am your angel
I'm your angelI saw your teardrops and I heard you cry
All you need is time seek me and you shall find
You have everything and you're still lonely
It don't have to be this way
Let me show you a better day
And then you will see the morning will come
And all of your day will be bright as the sunAll of your fears cast them on me
How can I make you seeI'll be your cloud up in the sky
I'll be your shoulder when you cry
I hear your voices when you call me
I am your angel
And when all hope is gone, I'm here
No matter how far you are, I'm near
It makes no difference who you are
I am your angel
I'm your angelAnd when it's time to face the storm
I'll be right by your side
Grace will keep us safe and warm
And I know we will survive
And when it seems as if your end is drawing near(The end is drawing near)
Don't you dare give up the fight
(Oh no)
Just put your trust beyond the skiesI'll be your cloud up in the sky
I'll be your shoulder when you cry
I hear your voices when you call meI am your angel
And when all hope is gone, I'm here
No matter how far you are, I'm near

It makes no difference who you are
I am your angelI'll be your cloud up in the sky
I'll be your shoulder when you cryI hear your voices when you call me
I am your angel
And when all hope is gone, I'm here
No matter how far you are, I'm near
It makes no difference who you are
I am your angel
I'll be your cloud up in the sky
I'll be your shoulder when you cry
I hear your voices when you call me
I am your angel
