Deep of the Night (feat. Diamond Thug)

GoldFish

if you heard it al before
dont tell me anymore
ill tell you what i see
its a little peace of me
i care
i don't
dont know where to go
well i try to find
what im capable of
found it in the deep of the night
where you wont know
where you dont go
drowning by the heat of the light
where you wont know
where you dont go
found myself as i sliped out side
where i went out
cus u started to write
if you never had to...
if i never found my mind
would you tell me to be free
were im running through the street
i can
i dont
dont know where to go
well i try to find
what im capable of
found in the deep of the night
where you wont know
where you dont go
drowning by the heat of the light
where you wont know
where you dont go
found myself as i steped out side
cus i started to ride
as i started to ride
as i started to ride
as i started to ride
in the deep of the night
as i started to rise
as i stated to rise
as i started to rise

as i started to ride
