Awesome

Gerald Levert

You know you the bomb, don't cha
Ooh, ooh ooh, baby you, yeah, yeah, yeah
My my my my my my my my my
My baby, ooh, babyYou musta just fell from the sky
'Cause I never had any girl like you in my whole life
Your lips, your smile, personality assumes
A confidence that comes on my moods
And you work as hard as me
But I'm always first on your list of priorities
You're killin' me softly, so softly
There's only one word that describes
This woman in my life
She's awesome
Everything a man wants in a woman
Baby girl, you're one in a million
Top billin', second to none
Where did you come from
Awesome awesome
Baby girl you know you are so awesomeEverything a man wants in a woman
Baby girl, you're one in a million
Top billin', second to none
Where did you come from
Awesome awesome
Baby girl you know you are so
If we was thuggin' you'd be a d.a.b
You'd have my back and even take the fall for me
Good clean and all the little things
It would turn you on on on on on on
And I could come our flower, I ain't never wrong
What's yours is mine, and what's mine is yours
Baby, and that's why I love you girl
Said I'd go to the ends of the world for my girlShe's awesome
Everything a man wants in a woman
Baby girl, you're one in a million
Top billin', second to none
Where did you come from
Awesome awesome
Baby girl you know you are so awesomeShe's awesome
Everything a man wants in a woman
Baby girl, you're one in a million
Top billin', second to none
Where did you come from

Awesome awesome
Baby girl you know you are so awesomeSaid there's some good ones, there's some bad girls
Magazines and their own best college education
They are smart but they couldn't hold on to my heartShe's awesome
Everything a man wants in a woman
Baby girl, you're one in a million
Top billin', second to none
Where did you come from
Awesome awesome
Baby girl you know you are so awesomeShe's awesome
Everything a man wants in a woman
Baby girl, you're one in a million
Top billin', second to none
Where did you come from
Awesome awesome
Baby girl you know you are so awesome
