

83 Days

Wafia

Left in your wake
I can't escape the aftertaste
The ruins of the life we made
So much of you still remains This ground is stained
On every corner where you left your trace
I try so hard to fill this space
But nothing else can take your place 83 days and I'm still not over you
83 days and I still can't cut you loose
83 days and I don't know why I'm still counting Are you thinking of the high before the fall
Are you thinking of the nights you used to call
Are you thinking of the way we had it all
In the way we were together (together)
Are you thinking of the plans we made for us
Are you thinking of the way we used to touch
Are you thinking that you maybe said too much
When you promised me forever (forever) Are you thinking of me?
Are you thinking of me?
Are you thinking of me?
Are you thinking Our love ran deep
And boy I gave you all of me
But I was young and so naive
'Cause you were never mine to keep I've moved on
Till they're playing me our favourite song
How quickly my resolve is gone
Makes me realise you ain't done, you ain't done
83 days and I'm still not over you
83 days and I still can't cut you loose
83 days and I don't know why I'm still counting Are you thinking of the high before the fall
Are you thinking of the nights you used to call
Are you thinking of the way we had it all
In the way we were together (together) Are you thinking of the plans we made for us
Are you thinking of the way we used to touch
Are you thinking that you maybe said too much
When you promised me forever (forever) Are you thinking of me?
Are you thinking of me?
Are you thinking of me?
Are you thinking I know I could've done better
I know I would've been settling
And I know I will forget it
I just want to know that you think of me 83 days and I'm still not over you
83 days and I still can't cut you loose
83 days and I don't know why I'm still counting Are you thinking of the high before the fall

Are you thinking of the nights you used to call
Are you thinking of the way we had it all
In the way we were together (together)Are you thinking of the plans we made for us
Are you thinking of the way we used to touch
Are you thinking that you maybe said too much
When you promised me forever (forever)Are you thinking of me?
Are you thinking of me?
Are you thinking of me?
Are you thinking
