Bonfire

Meese

Get your car, gather what you need
Bring the matches and kerosene
Tell 'em that you might need a couple days
Better off if it's face to face
We're gonna burn what we never mean
If it hurts if it's killing me
Throw it in the fire then we walk away
Start over from another place
There's a bonfire burning up
You just throw it on the fire
Sometimes the flames burn high
There's a bonfire burning up
You just throw it on the fire
Sometimes and wave goodbye
Stand in the rain watch another wave
Nothing left of the mess we made
Take another look then we turn around
There's nothing left here anyhow
You verses me verses everything
Title bout out of the century
Can you walk away in the final round?
There's nothing worth fighting for anyhow
There's a bonfire burning up
You just throw it on the fire
Sometimes the flames burn high
There's a bonfire burning up
You just throw it on the fire
Sometimes and wave goodbye
There's a bonfire burning up
You just throw it on the fire
Sometimes the flames burn high
There's a bonfire burning up
You just throw it on the fire
Sometimes and wave goodbye
[Music.]There's a bonfire burning up
You just throw it on the fire
Sometimes the flames burn high
There's a bonfire burning up
You just throw it on the fire
Sometimes and wave goodbye
There's a bonfire burning up
You just throw it on the fire

Sometimes it hurts sometimes
There's a bonfire burning up
You just throw it on the fire
Sometimes and wave goodbye
Goodbye
