Easier As Us (Acoustic)

Michael McEachern

Can't get my mind away from thoughts of you
Two weeks ago today you were just the girl I drew
Now I think it's time that we decide; lovers or friends
And we would be fools not to follow what our hearts suggestSo think it over
And let me know girl'Cause you and I would be easier as us
We don't need three words when just one could sum us up
We're a couple; a pair, it's apparent when we touch
Oh, you and I would be easier as us...
easier as usCan't keep my hands away from holding yours
And your eyes like gravity keep pulling close inside of your world
Now I think it's time that together we find a life of our own
But together is hard when our title indicates we're alone
So think it over
And let me know girl'Cause you and I would be easier as us
We don't need three words when just one could sum us up
We're a couple; a pair, it's apparent when we touch
Oh, you and I would be easier as us...
easier as usStraight to the point
Straight to the heart
I knew you were right
Right from the startYou and I would be easier as us
We don't need three words when just one
One could sum us up...
You and I would be easier as us
We don't need three words when just one could sum us up
We're a couple; a pair, it's apparent when we touch
Oh, you and I would easier as usYou and I... would be easy as us
