

Skinny Dipping

WhoMadeWho

Turn of your mind and make it stop
empty the bottle drink it up
If you are the only one
let's go and get your dress undon
walk to see take of your shoes
get ride of all that's left to lose
If you are the only one
let's go dans in the midnight sun
tell me now love can we make it to the other side
i feel the boaters rocking and the wawes go high
everything is cool but i am sezing again all the time
let's turning the stering over and get home tonight
let's go danse, danse, danse in the midnight sun
let's go shoot it out like a tommygun
got a song in my head everything is ok
i don't know when it'll go away
let's go danse, danse, danse in the midnight sun
let's go shoot it out like a tommygun
got a song in my head everything is ok
i don't know when it'll go away
tell me now love can we make it to the other side
i feel our love shaking and the wawes go high
everythings cool but i wonder if it's worth the fight
know that things like these can end over night?
let's go danse, danse, danse in the midnight sun
let's go shoot it out like a tommygun
got a song in my head everything is ok
i don't know when it'll go away
let's go danse, danse, danse in the midnight sun
let's go shoot it out like a tommygun
got a song in my head everything is ok
i don't know when it'll go away
