When You're Falling (feat. Peter Gabriel)

Afro Celt Sound System

Everyday, you crawl into the night
A fallen angel, with your wings set alight
When you hit the ground
Everything turns to blue
I can't get through the smoke
That's surrounding you
Cause when you're falling
I can't tell which way is down
And when you're screaming
Somehow I don't hear a sound
And when you're seeing things
Then your feet don't touch the ground
Cause when you're falling
I can't tell which way is down
I can see through the clouds
I can walk right through the walls
Hang me off the ceiling
But I can't take the fall
Should have crossed the river
But I may get swept away
Out there on the water
You can still see me wave
Cause when you're falling
I can't tell which way is down
When you're falling
I can't tell which way is down
I keep seeing all those things
My feet don't touch the ground
Cause when you're falling
I can't tell which way is down
And when you're screaming
Somehow I don't hear a sound
And when you're seeing things
Then your feet don't touch the ground
Don't touch the ground
Cause when you're falling
I can't tell which way is down
And when your screaming
Somehow I don't hear a sound
I don't hear a sound
I can't hear a sound, I can't hear a sound
No sound

Cause when you're falling
I can't tell which way is down
And when you're screaming
Somehow I don't hear a soundCause when you're falling
I can't tell which way is down
And when you're screaming
Somehow I don't hear a soundCause when you're fallingCause when you're fallingCause when you're fallingWhen you're screaming
Somehow I don't hear a sound
