# No One (feat. Matthew Steeper)

## Project 46

I'm walking down the road less traveled
It's harder when the sun is shining 'cause the light's not fair
I'm talking to my darkest shadows
This love, it still won't die but they don't care
I don't know why
I do this to myself
It's not right
But I can't love no one else
No one else
But I can't love no one else
No one else
But I can't love no one else
But I can't love no one else
I'm walking down the road less traveled
It's harder when the sun is shining 'cause the light's not fair
I'm talking to my darkest shadows
This love, it still won't die but they don't care
I don't know why
I do this to myself
It's not right
But I can't love no one else
No one else
But I can't love no one else
No one else
But I can't love no one else
But I can't love no one else
