Little Bit of This (feat. Vince Staples)

GTA

Hip hop ain't really did shit for me
Little bit of hell, little bail for the homies
Got a little green, bought a beam for the forty
Took more shots, you have to face it, Kobe
After dark you go crazy
Police ain't scarin' shit, you ain't bred for this
I'm still in the hood, they make bread and dip
I'm not jumpin' ship, I might fuck your bitch
Who got love for Vince?
Feelin' like Snoop at the Source awards
Feelin' like you wasn't born for war
Cause when I come around you be head to the ground
Crack a motherfuckin' smile, I'm the man 'round the town
Frank Lucas mode
When I'm in I heard that Frank Lucas told
Long Beach like Crazy Joe with Mayhem
Where we get new wheels from rocks like caveman
Little bit of this, little bit of that
Little bit of this, little bit of that
Little bit of this, little bit of that
Little bit of this, little bit of that
Little bit of this, little bit of that
Little bit of this, little bit of that
Might dump a clip, where them niggas at?
Might fuck your bitch, where the women at?Crack baby base in my Similac
Been crazy, come where you livin' at
Kick down the door, get down or get gone
I ain't come here for the chitter chat
But I'm far removed from that gangsta shit
It don't make much sense, rather make me rich
Don't be playin' with my money, it'll make the flip
And in the last couple lines I'ma contradict
And for the last time, I ain't writin' no more conscious shit
I like big girls, fast whips, ass and tits
Marriages to white women, Mike Jackson shit
So stop actin' like I'm an activist
No this ain't happen on accident
They give a dead white man to the Africans
It'll never be another one after Vince
So just pay admission then pay attention
Little bit of this, little bit of that
Little bit of this, little bit of that

Little bit of this, little bit of that
Little bit of this, little bit of that
Little bit of this, little bit of that
Little bit of this, little bit of that
Might dump a clip, where them niggas at?
Might fuck your bitch, where the women at?
Little bit of this, little bit of that
Little bit of this, little bit of that
Little bit of this, little bit of that
Little bit of this, little bit of that
Little bit of this, little bit of that
Little bit of this, little bit of that
Might dump a clip, where them niggas at?
Might fuck your bitch, where the women at?Uh, yeah, uh, yeah, uh, yeah, uh, yeah
Uh, yeah
