Sobriety (feat. Jade Foster)

Jesse Boykins III

Baby i been sitting
surrounded by blunt leaves
tryna kill brain cells
all the memories of you and me
see they say lifes a trip
there's always something better
(down the road)
just wish you coulda stayed in the car
now i have no where go
Sobriety, Sobriety
I gotta get over you
so addictedLately so dazed and confused
(lost in you)
wrapped up in this imagery
(Im kissing you)
I still wish we
(love in slow motion)
If I knew we were gonna end
Im so drunk off you
baby this feeling's my only friend
Im not the kinda man to hold back emotions
I just wish these tears would stop
(Oh i wish these tears would stop)
Clouding my heart
(Clouding my heart)
My heart
I gotta get over you
Im so addicted
Addicted
