# I Have Friends In Holy Spaces

## Panic! At the Disco

You remind me of a former love that I once knew
And you carry a little piece with you
We were holding hands walking through the middle of the street
It's fine with me, I'm just taking in the sceneryYou remind me of a few of my famous friends
Well, that all depends what you qualify as friends
You remind me of a few of my famous friends
Well, that all depends what you qualify as friendsTake a chance, take your shoes off, dance in the rain
I was splashing around and the news spread all over town
I'm not complaining that its raining I'm just saying that I'd like it a lot
More than you think, if the sun would come out and sing with me
You remind me of a few of my famous friends
Well, that all depends what you qualify as friends
You remind me of a few of my famous friends
Well, that all depends what you qualify as friends
