Meet Me In Montauk

Circa Survive

1, 2, 3, 4
Leave just as you came
without a sound
nothing to ruffle your endsI've been wadering 'round
making up movies in my...
so we say don't let it go
let me try and pull out my pride
I already forget how I used to feel about you
leave as fast as you came
no invitation
no where to go from here
I've been wandering around wondering how
I got so, got so...
so fucking bored all of a sudden
so fucking scared, I'm not scared
you'd mean so much more to me
you'd mean so much more if I remembered
