Night Swimmers (Mura Masa Edit)

Foals

Another hot summer's day
And only we know the way
To the cool blue lagoon
Where we sleep until noonThe city is all ablaze
With blue notes and haze
We hit the open wide roads
Snuck the moon in clothesGive up to the moon
Give up today
Give up to the moon
We swim under the moon
In the cool blue lagoon
You count up all my scars
Crumble them into stars
Your such a perfect mess
You and your dirty white dress
And the day I came toGive up to the moon
Give up today
Give up to the moon
Give up todayPerfect moon we relent
You said to drink and we sip
We smoke flowers rising high
Under the famous sky
Give up to the moon
Give up today
Give up to the moon
Give up today
