Dear God

Ferras

Dear God, listen up
I have to ask you a question
I can't hear, think you're breaking up
I need a clearer connectionAnd God,
Are you listening?
And God,
Are you even there?Now answer this
If you really exist,
Why do I have to deal with all this bullshit?
What did I ever do?
Can I make it up to you?
If you're so full of grace, then send it
On down
Lessons we learn from the time of our birth
Are an endless source of confusion
See I'm on a search, because I've heard
You got a magic solutionAnd God,
It's time that you explain
And God,
Are you even there?Now answer this
If you really exist,
Why do I have to deal with all this bullshit?
What did I ever do?
Can I make it up to you?
If you're so full of grace, then send it
On down
Dear God,
You're grace
Send it on down
To me
Dear God,
You're grace
Send it on down, send it on down,
Send it on down to me, on down to me
Come on on and send your love on down to meIf you really exist,
Why do I have to deal with all this bullshit?
What did I ever do?
Can I make it up to you?
If you're so full of grace, then send it
Send it, send it
On down
