Watch You (feat. Pitbull & Disco Fries)

Clinton Sparks

It's like you're moving in slow motion
That's how I see you in my mind
I'd give a lifetime of devotion
A love like yours is hard to findAnd I would drive all through the night
Just to be with you
Just to be with you
And I would fight a samuraiJust to be with you
Just to be with you
And would run for 100 miles
Just to be with you
Just to be with you
And I'd jump in the crowd right now
Just to be with you
Just to be with you tonightWhere would I be without your love?
There is no me without your love
Where would I be without your love?
There is no me without your love
Where would I be without your love?
There is no me without your love
And I would drive all through the night
Just to be with you
Just to be with you
And I would fight a samurai
Just to be with you
Just to be with you
And would run for 100 miles
Just to be with you
Just to be with you
And I'd jump in the crowd right now
Just to be with you
Just to be with you tonight
And would run for 100 miles
Just to be with you
Just to be with you
And I'd jump in the crowd right now
Just to be with you
Just to be with you tonight
