

# Shelter

John Legend

Look over your shoulder  
I'm never too far  
I'll get to wherever you are  
I'll carry your burden  
I'll carry your load  
I'm here with a hand to hold Mmm, I will be your shelter  
I will be your shelter  
I will be your shelter  
Through the storm  
I will be your shelter  
I will be your shelter  
I will be your shelter  
Through the storm  
10 seconds to midnight  
No morning side  
Full moon in the sky is high  
I'll be your bridge over the water  
Fire when it's cold  
I'll be the best friend you know I will be your shelter  
I will be your shelter  
I will be your shelter  
Through the storm  
Yeah, yeah  
I will be your shelter  
I will be your shelter  
I will be your shelter  
Through the storm  
Yeah, yeah  
Oh I will be yours but love  
My love, my love  
Thunder is raging  
I won't give up  
I don't know what life has in store  
But I know that I will be your  
I will be yours  
I will be yours I will be your shelter  
I will be your shelter  
I will be your shelter  
Through the storm  
Yeah, yeah  
I will be your shelter  
I will be your shelter

I will be your shelter  
Through the storm  
Ah, aah, be your shelter through the storm mmmm.
