# Right into U

## Spencer Ludwig

I like the way that you laugh
When you're prepping your hair
(uh huh)
And I like the way you don't mind
When I'm caught in your stare
(uh huh)Yes, you're mine for a reason
You're so fine, but I don't care
It's your soul that's so pleasing
Right on time
So let's go-oo-woahoh!
We can bring our friends along
Singing our favorite song
Going where I belong
Right into you, babe
We can bring our friends along
Winging it can't be wrong
Going where I belong
Right into you, babe
Right into you, babeI like the way that you dance
Like there's nobody there
(uh huh)
Now I'm on my feet, to the beat
And we're walking on air
(uh huh)
Cause I'm in love
I ain't teasing
You're the one and I ain't scared
You're a friend for all seasons
Right on time, so let's go-oo-woahoh!We can bring our friends along
Singing our favorite song
Going where I belong
Right into you, babe
We can bring our friends along
Winging it can't be wrong
Going where I belong
Right into you, babe
Right into you, babeYes, you're mine for a reason
You're so fine, but I don't care
It's your soul that's so pleasing
Right on time
So let's go-oo-woahoh!We can bring our friends along
Singing our favorite song

Going where I belong
Right into you, babe
We can bring our friends along
Winging it can't be wrong
Going where I belong
Right into you, babe
Right into you, babe
Right into you, babe
We can bring our friends along
Singing our favorite song
Going where I belong
Right into you, babe
Right into you, babe
