# Running

## Goapele

Running, running, I'm running, running
Running, running, I'm running, running
Running, running, I'm running, running
Running, running, I'm running, runningTaking down all I know
Trying to relieve my soul
But it don't make me feel no better
If I knew how to let you goNo more fragility, walking through
Your door begging on my knees
I'm saying all these words
But every time I see you I get weak
In my heart I wish
(Heart I wish)
This love will last
(this love will last)
But I cant seem to leave you
Buried in my pastAnd every time you ask me
(Time you ask me)
To take you back
(To take you back)
I get running, baby, running to you fast
(Well, now you got me running)(Yeah and running)
Running, running, I'm running, running
(Yeah and running)
Running, running, I'm running, running
(Yeah and running)
Running, running, I'm running, running
Calling up all my friends
Telling them I need a new man
(Uh-huh)
Well, it don't make me feel no better
Still walking through stormy weatherNo more tears and deceit 'cause I hear
The way they talk on the streets
I'm saying all these words
But every time I see you I get weakIn my heart I wish
(Heart I wish)
This love will last
(This love will last)
But I can't seem to leave you
Buried in the pastAnd every time you ask me
(Time you ask me)
To take you back
(To take you back)

I get running, baby, running to you fast
(Well, now you got me running)(Yeah)
Running, running, I'm running, running
(Yeah)
Running, running, I'm running, running
(Yeah)
Running, running, I'm running, running(Oh)
I'm running, baby
(Oh)
I'm runningIn my heart I wish
(Heart I wish)
This love will last
(This love will last)
But I can't seem to leave you
Buried in the pastAnd every time you ask me
(Time you ask me)
To take you back
(To take you back)
I get running, baby, running to you fastIn my heart I wish
(Heart I wish)
This love will last
(This love will last)
But I can't seem to leave you
Buried in the pastAnd every time you ask me
(Time you ask me)
To take you back
(To take you back)
I get running, baby, running to you fast
(Well, now you got me running)(Yeah)
Running, running, I'm running, running
(Yeah)
Running, running, I'm running, running(Yeah)
Running, running, I'm running, running
(Yeah)
Running, running, I'm running, running
