Like a Hurricane (feat. Max Barskih)

DJ Antoine, Mad Mark & FlameMakers

Can you save me
From the darkness
Your breath can take away my fears
I'm holding my sadness
Come and force my pain to disappear
And find me in the shadows
Of thousand broken lives
Try to open all my windows
And bring me back to lifeComing on through the pouring rain
Breaking through every barricade
I'll be there to ease your pain
Call my name I'll come running
Relight your fire again
If you need me here I am
Oh, like a
????????????????????????????????,??
Coming on through the pouring rain
Breaking through every barricade
I'll be there to ease your pain
Call my name I'll come running
Relight your fire again
If you need me here I am
Oh, like a hurricane
