That's the Way Love Is

Bobby Darin

(Darin)
Trio Music Co./Alley Music Corp., BMIYou're feeling low and oh so small
Then suddenly you're eight feet tall
She just walked in the room
And the gloomy room just glows
That's the way love is
That's how it goesYou're such a drag from nine 'til five
Then all at once you're so alive
It's just the way she winks her eye
Or wrinkles her nose
That's the way love is
That's how it goes
It's the world's oldest unsolved riddle
The kind of game you just can't win
And if you come up with the answer
You're a better man sir, than I, Gunga DinSo when that tingle hits you deep
And you're tired but you just can't sleep
Don't you take my word
Go and ask anyone who knows
That's the way love is
That's how it goesIt's the world's oldest unsolved riddle
The kind of game you just can't win
You come up with the answer
And you're a better man sir, than I, Gunga Din
So when that tingle hits you deep
And you're tired you don't sleep
Don't you take my word
Go and ask anyone who knows
That's the way love is
That's how it goes
That's how it goes
That's how it goes
