# Addicted (feat. Greg Laswell)

## Morgan Page

You say that you'd be back now
After your last more flight
And so I see you off well
And look the other way with all my might[CHORUS]
And I, I might be addicted
To where and how you land up on your feet
Yeah, I might be addicted
To how you always get the best of me
I say out loud this is the last time
I say out loud this is the last timeI wonder if you'll back down
There is no end in sight
I'm waiting for the right one
And when we'll ever really get it right[CHORUS]Universe, how strong am I?
There's one more exit flies on by
Yeah, I, I might be addicted
To where and how you land up on your feet
Yeah, I might be addicted
To how you always get the best of me [x2]
