I Keep Faith

Billy Bragg

If you want to make the weather
Then you have to take the blame.
If sometimes dark clouds fill the sky
and it starts to rain,
Folks complain.And though your head may tell you
To run and hide,
Listen to your heart and you'll find me
Right by your side,
BecauseI keep faith
I keep faith
I keep faith
I keep faith in you.
Yes I do, I keep faith in you.
If you think you have the answer
Don't be surprised
If what you say is met with anger
contempt and lies.
No matter how hard you may want to,
Just walk away.
Reach out, you'll find me there beside you
All of the way,
Because
All the dreams we shared
I never knew no one who cared
About these things the way that I've see you.
It doesn't matter if
This all falls off the cliff.
Together we are going to see it through.
I know it takes a mess of courage
To go against the grain.
You have to make great sacrifice for such little gain,
And so much pain.
And if your plans come out to nothing,
Washed out in the rain,
Let me rekindle all your hopes and
Help you start again,
Because(Refrain)I keep faith in you.
Yes I do, I keep faith in you.
I keep faith in you.I keep faith in you.
Yes I do, I keep faith in you.
I keep faith in you.
