

# Play (feat. Maty Noyes)

## SoMo

Pearls on her neck and her black dress on  
She don't know I'ma take her home  
She don't know I'ma make her feel  
Like she never ever felt before  
I'm from the rough side, she from the best  
Eyes like that can be dangerous  
But I like that, I got interest  
I'm thinking that she could be my mistress I'm foreign to the way she likes to play the game  
Oh she loves to play the game  
She wanna be, wanna be, wanna be  
She wanna be mischievous  
Tell me what you want and we can play all night  
I'm foreign to the way she likes to play the game  
Oh she loves to play the game  
She wanna be, wanna be, wanna be  
She wanna be mischievous  
Tell me what you want and we can play all night  
I know I'm probably outta line but  
Boy, please let me unwind  
Yeah, you know that I've been working these hips  
What makes you think I can't handle this?  
It's been a long night  
We're gonna be here all night  
So we can play, we can play if you ain't lame  
You know I'm with the same with the game, with the game, game, game I'm foreign to the way  
she likes to play the game  
Oh she loves to play the game  
She wanna be, wanna be, wanna be  
She wanna be mischievous  
Tell me what you want and we can play all night  
I'm foreign to the way she likes to play the game  
Oh she loves to play the game  
She wanna be, wanna be, wanna be  
She wanna be mischievous  
Tell me what you want and we can play all night  
I say you love the game  
But you never play nobody else like me  
You end as far as I can see  
It's strange, once you had a taste  
You won't ever want nobody else but me  
Once you're in, you're into me I'm foreign to the way she likes to play the game  
Oh she loves to play the game

She wanna be, wanna be, wanna be  
She wanna be mischievous  
Tell me what you want and we can play all night  
I'm foreign to the way she likes to play the game  
Oh she loves to play the game  
She wanna be, wanna be, wanna be  
She wanna be mischievous  
Tell me what you want and we can play all night
