## **Lucky Charm**

## **Keith Urban**

I was livin' on a landslide Fallin' fast until you took my Hand, now I won't ever let you go Let you goFour-leaf clover and a horses shoe Knockin' on wood was all I ever knew I'm savin' all my wishing well pennies and

I got so many ever since you came alongSunlight shinin', baby, roll the dice

Now that I got you by my side

We can't lose

No more waitin' on a shooting star I'm betting it all on your pretty heart Baby, you're my lucky charm Like an angel from the blue sky Sent to save me from my dark side Yeah, the light inside was fading

But I found salvation when I fell into your eyesSunlight shinin', baby, roll the dice

Now that I got you by my side

We can't lose

No more waitin' on a shooting star I'm betting it all on your pretty heart Baby, you're my lucky charmAll I know is I got your love, I got your love, baby Yes, I do

I got your love, I got your love, baby Oh, I got it, baby

I got your love, I got your love, baby

Whoa, oh, oh, whoa Sunlight shinin', baby, roll the dice

Now that I got you by my side

We can't lose

No more waitin' on a shooting star I'm betting it all on your pretty heart Baby, you're my lucky charm
