

So Good, so Right

Imagination

So good, so right, so good, so right Sunshine and the rain, pleasure and the pain.

I found a reason not to cry.

colours mesmerize,

how you hypnotize, so good, so right.

Main attraction, so divine, strong reaction, so alive

You're every wish is my command

You look at me, I look at you, nothing more to say,

so good, so right You make the moon just keep on shining

Colors like the rainbow in the air (so right)

give every cloud a silver lining (so right)

So good, so right,

so good, so right

At last I know it's real, this power I can feel.

Paradise is here for us to see.

main attraction, so divine, strong reaction, so alive,

(so good, so right) It hurts me, I like it, you're everything to me

Deep inside I know you'll understand

You look at me, I look at you, nothing more to say,

(so good, so right) You make the moon just keep on shining

Colours like the rainbow in the air (so right)

give every cloud a silver lining

(So right) You make the moon just keep on shining

Colors like the rainbow in the air (so right)

give every cloud a silver lining (so good, so right)

So good, so right,

KEYS

so good, so right

KEYS

So good, so right,

You make the moon just keep on shining

Colours like the rainbow in the air (so right)

give every cloud a silver lining

(So right) You make the moon just keep on shining

Colors like the rainbow in the air (so right)

give every cloud a silver lining (so good, so right)

So good, so right,

So good, so right, so good, so right (So good, so right, so good, so right)

(So good, so right, so good, so right)

(So good, so right, so good, so right) So good, so right REPEAT X3
