

# Time

## Don Carlos

Tomorrow is another day, as the clock keeps tickin' away:  
Time is so precious and so I say.  
Tomorrow is another day, as the clock keeps tickin' away:  
Time is so precious and so I say. Wake up to meet the rising sun,  
Get on your feet, don't be no slum.  
Rolling stone gather no moss,  
Move too slow you will pay the cost.  
Hear me when I say (yeah, yeah,) when I say (yeah yeah.) Cuz tomorrow is another day, as the  
clock keep tickin' away:  
Time is so precious and so I say.  
Tomorrow is another day, as the clock keep tickin' away:  
Time is so precious and so I say.  
Let's make it, when the sun is shining,  
Get up let's do something creative.  
Don't waste your time away, or you won't see the day. Tomorrow is another day, as the clock  
keeps tickin' away:  
Time is so precious and so I say.  
Tomorrow is another day, as the clock keeps tickin' away:  
Time is so precious and so I say. Wake up to meet the rising sun,  
Get on your feet, don't be no slum.  
Rolling stone gather no moss,  
Move too slow you will pay the cost. Tomorrow is another day, as the clock keep tickin' away:  
Time is so precious and so I say.  
Tomorrow is another day, as the clock keep tickin' away:  
Time is so precious and so I say.  
Let's make it, when the sun is shining,  
Get up let's do something creative.  
Time wait on no one, you got to be strong, (oh-oh.) (oh-oh.)  
Hear me when I say, (ye-ee, 3x) hear me when I say:  
Cuz tomorrow (is another day) yeah tomorrow (is another day)  
Tomorrow (is another day) yeah tomorrow (is another day)  
Tomorrow (is another day) hope and pray, hope and pray  
We going the right way, you better hope and pray  
Wake up. (ye-ee,)
