

# Can You Hear Me Now?

## Brandy

Some things are best left unspoken  
Don't waste time with that talk  
Just keep that back in motion  
It ain't that easy for me to get off But I can be your guilty pleasure  
Just make sure to put it down, down, down  
Yeah I'm ready for whatever  
But you gotta make mama proud And every night you love for my affection  
And close the leap I guarantee to turn you out  
But you just point that thing in my direction  
And when I'm almost there I start making that sound  
Can you hear me now  
Am I getting closer  
Can you hear me now  
Well if not then you're supposed to  
Can you hear me now  
Ah I can hear you baby  
I can see you baby  
Ah I can hear you baby  
I can see you baby  
Ah I can hear you baby  
I can see you baby  
Can you hear me now  
I'm pretty sure that you noticed  
The swagger in my walk  
Just pay attention and focus  
Baby you just gotta play your part  
And then you can get this treasure  
But you gotta dig deeper down down down  
When nobody love you better  
But you gonna make mama proud Can you hear me now  
'Cause I can hear you  
Am I getting close I  
Getting closer  
Can you hear me now  
Well if not then you're supposed to  
Can you hear me now  
Yeah I can hear you baby  
I can see you baby  
Yeah I can hear you baby  
I can see you baby  
Yeah I can hear you baby  
I can see you baby

Yeah I can hear you baby  
I can see you baby  
Can you hear me now Can you hear me now  
Am I getting close I  
Can you hear me now  
Well if not then you're supposed to  
Can you hear me now  
Yeah I can hear you baby  
I can see you baby  
Yeah I can hear you baby  
I can see you baby  
Yeah I can hear you baby  
I can see you baby  
Yeah I can hear you baby  
I can see you baby  
Can you hear me now
