

Long Nights

6LACK

Fuck, that's what I need, I need, I just need
Wanna be in Miami with someone I got a good side, got a bad side, do you wanna find out
Rollin' through the city, I'm probably 'posed to be on time out
Why you gotta ask, won't you just take it
You want someone that won't fake it
Want someone that's down to get you naked
I know I'm a problem, I know that I'm something you should ponder
Go on, just sponsor the monster
Pimp like Kat Will
Black truck got black wheels and the paint got the matte feel
I been stuntin' so wild, daddy came up outta Nat Geo
Try to open like pistachio and I'm slight throwed off
So I had to go, mami, I had to know, I'm
Hopin' for a fuck around
Hopin' for a good time
Hopin' for a long night, pour up the drink
Wear Chanel, mami, you bad as hell, I'm
Hopin' for a fuck around
Hopin' for a good time
Hopin' for a long night, pour up the drink
Wear Chanel, mami, you bad as hell She got Fenty on her lips, uh huh
Think I wanna kiss just once
We did what should've been done
You the hottest thing under the sun, I'm
Hopin' for a fuck around
Hopin' for a good time
Hopin' for a long night, pour up the drink
Wear Chanel, mami, you bad as hell
I just wanna put on a song and hear you
Baby, baby, baby
Lookin' somethin' bad and laugh at it
You cannot help that you mad at it
Roll up a joint then we kick it, oh yeah, shawty
Pour us a drink, now we drunk and we fuckin' to Sade
How did we get here, how did we get there
With a night like that, what are we, (What are we?)
Don't ask no question, shawty (Shawty)
Hotel room for the afterparty (Party)
You know that I'm with the shit, I like your vibe and you really legit
We done got low to the floor in a bit (Yeah)
We done went high and went low in a bit That's just for one night (Long as you get here, long as
you get here)

And if you wanna do it again
Maybe we can (Long as you get here, long as you get here)
