

Streamline (ATLAS Remix)

Pendulum

(State your original plan as well,
Being replaced by anything,
Century houston for that,
Was that, was that it?
not let anyone surround you soak through and through,
What you were originally about in the first place), Come inside, think about it was it you or not,
come in here,
Come inside, think about it was it you or not, come and hide,
Come inside, think about it was it you or not, come in here,
Come inside, think about it was it you or not, come and hide, (let it go) let it come streamline,
(let it go) let it come in time,
(let it go) let it come streamline, Ready or not, ready or not, ready or not,
Come inside, think about it was it you or not, come in here,
Come inside, think about it was it you or not, come and hide,
Come inside, think about it was it you or not, come in here,
Come inside, think about it was it you or not, come and hide, (let it come) let it come
streamline, (let it come) let it come in time,
(let it come) let it come streamline, Let it come streamline,
Let it come in time,
Let it come streamline,
Let it come in time, Let it come streamline,
Let it come in time,
Let it come streamline, (let it come) let it come streamline,
(let it come) let it come in time,
(let it come) let it come streamline,
(let it come, let it come streamline),
(let it come, let it come in time),
(let it come, let it come streamline), (let it come, let it come streamline),
(let it come, let it come in time),
(let it come, let it come streamline).
