## **About Life**

## Julianne Hough

Ever since I was a little girl You couldn't dare tell me a thing I was as stubborn as they come I was such a drama queen

Thought I was right and I could do no wrongSome could've been a few dead ends

Some bumps along the way

Some never should've been boyfriends

That ended in heartache

But I still try to see the brighter sideWhat goes up don't always come back down
What goes around don't always come aroundI've been down on my knees just a beggin' the Lord
The Devil's been knocking at my door

I've been in the dark but I've always found the light

Oh, I've been up and down this road before

I keep on coming back for more

And I still haven't figured a dang thing out about life

Ooh, about lifeI've lived and learned and I've been burned

But it's all apart of me

I've got bars around my heart but I still believe

There's someone out there with the keyBut I still dream and I won't give up the fight And who knows if I'll ever get it rightDown on my knees just a beggin' the Lord

The Devil's been knocking at my door

I've been in the dark but I've always found the lightOh, I've been up and down this road before I keep on coming back for more

And I still haven't figured a dang thing out about life

Ooh

What goes up don't always come back down

What goes around don't always come around

I'm gonna keep on keepin' onI've been down on my knees just a beggin' the Lord

The Devil's been knocking at my door

I've been in the dark but I've always found the lightOh no, I've been up and down this road before

I keep on coming back for more

And I still haven't figured a dang thing out about life

And I still haven't figured a dang thing out about life

Ooh, about life
