

Monster

The Girl and The Dreamcatcher

I wanna be the blood that it's in your veins
Why am I let so easily astray?
It's something about the cool way you understand
Say you'll be the life of me, take my hand If I'm lost why do I feel found
Pull me under let me drown
Cause who needs air
When you're mine you're safe and sound
Haunted and completely bound to my nightmare
You're a monster, but I want you (What does that say about me)
You're a monster, but I want you (What does that say about me)
We tried to get the darkness in the day
Be here with me forever in the grave
It's something to do with the beat of your heart
It's something like mine, it's the missing part If I'm lost why do i feel found
Pull me under let me drown
Cause who needs air
When you're mine you're safe and sound
Haunted and completely bound to my nightmare
You're a monster, but I want you (What does that say about me)
You're a monster, but I want you (What does that say about me)
You're a monster, but I want you
You're a monster, but I want you
You're a monster, but I want you
You're a monster, but I want you
