

# Such As It Ends

## Ludo

I've been losing sleep for days  
You've been searching through the deserts and the caves  
Your postcards hit me in waves  
Sadly stinging me with songs from yesterday  
Love, such as it ends  
Breaking the hearts that wouldn't bend  
Closes the doors you used to listen through  
(But it goes on...) Love, such as it ends  
Into the flames we'll start again  
And in the end I'll be with you  
You've been burning up for days  
Trying to gather all the figures in the clay  
You know they can't all be saved  
Leave the weak ones, find a modicum of shade  
Love, such as it ends  
Breaking the hearts that wouldn't bend  
Closes the doors you used to listen through  
(But it goes on...) Love, such as it ends  
Into the flames we'll start again  
And in the end I'll be with you  
I've been vacant for so long, but you were there  
You look so tired, now just please  
Love let me take it on my shoulders  
And we might make it home  
Love such as it ends  
Breaking the hearts that wouldn't bend  
Love such as it ends  
Breaking the hearts that wouldn't bend  
Closes the doors you used to listen through  
(But it goes on...) Love such as it ends  
Into the flames we'll start again  
And in the end I'll be with you  
Love, such as it ends... Love, such as it ends...  
And in the end, I'll be with you
