

# Odd Future

AmaLee

I keep my ideals alive, they fuel my LIFE!  
What's going through?  
As soon as you fly high,  
you can't deny the starlight, you love the contradiction shaking you.  
Even when you fall take one step. (Ooh)  
You can breathe again in one step. (Ooh)  
It can be that easy in one step, and that's it!  
Another endless day fading into the night.  
Oh it goes on, every day all the same like a game.  
When I close my eyes, I feel alive, and maybe that's the reason why...  
I'm  
DREAMING! My mind rewinds,  
but still this endless sky, it can't fill my heart.  
So let's BREAK FREE!  
Escaping the reach of the NIGHT!  
The FUTURE that we're looking towards loses  
clarity, so we just look away for a MOMENT!  
And we see that we can be the HEROES straight out of our dreams!  
Ayy-ay  
Ayy-ay, oh ODD FUTURE  
Ayy-ay  
In this world you're gonna reap what you sow.  
Breaking free from the rust in your soul.  
Gotta rise from a dark history.  
But I fell for these lies, I believed,  
that I could start again if I threw it all away.  
But that mistake could've sealed my fate.  
But now today I've opened up my eyes, and I feel so alive.  
What's goin' on?  
We've just begun everything you've left undone.  
You can't rewind the days but you can change your direction.  
What's goin' on?  
'Cause I can see that no one else is quite like me  
A realm of possibility and so!  
My  
TEARS! They disappear, the meanings change, and they all fade.  
NEW DAYS! They're on the horizon so let's GO!  
Do YOUR BEST! Are you excited?  
The connections flow, coursing through my veins.  
So LET'S GO! The dark it won't dare hold us BACK!  
Ayy-ay, oh ODD FUTURE  
Ayy-ay

I'm DREAMING! My mind rewinds,  
but still this endless sky, it can't fill my heart.  
So let's BREAK FREE!  
Escaping the reach of the NIGHT!  
The FUTURE, that we're looking towards loses clarity.  
So we just look away for a MOMENT!  
And we see that we can be the HEROES straight out of our dreams!  
I keep my ideals alive,  
they fuel my life and love and I  
must've somehow lit a spark to feed that fire.  
I can see the path now, it's calling OUT!
