One for the Road

Cee-Lo

One for the road, ooh ooh

One for the road, ooh ooh From the bottom of your heart, the relegation zone

I saw this coming from the start

The shake rattle and roll

The cracks in blackout blinds cast patterns on the ceiling

But you're feeling fine

I thought it was dark outside

I thought it was dark outside

One for the road

So we all get back to yours and you sit and talk to me on the floor There's no need to show me round baby

I feel like I've been here before

I've been wondering whether later when you tell everybody to go

Will you pour me one for the road?

I knew this would be on the cards

I knew you wouldn't fold

I saw this comin from the start

The shake rattle and roll

One for the road

So we all get back to yours and you sit and talk to me on the floor There's no need to show me round baby

I feel like I've been here before

I've been wondering whether later when you tell everybody to go

Will you pour me one for the road?

The mixture hits you hard

Don't get that sinking feeling

Don't fall apart

Some out of tune guitar

Soundtrack to disaster

Ooh ooh, one for the road

Ooh ooh, one for the road

Ooh ooh, one for the road

Ooh ooh

Ooh ooh

Ooh ooh

Ooh ooh

One for the road

So we all get back to yours and you sit and talk to me on the floor There's no need to show me round baby

I feel like I've been here before

I feel like I ve beelf fiele befole

I've been wondering whether later when you tell everybody to go
